

## PerkinElmer Lunch & Learn Series

**Vous êtes invités...**

### PerkinElmer Lunch & Learn Series

Venez déguster une bonne pizza et apprendre avec PerkinElmer:

- 1) **ICP-OES: Flat Plate Plasma & eNeb (electronic nebulizer)**  
**Dr. Chady Stephan (Inorganic applications specialist) will discuss about recent advancement in ICP-OES analysis.**
- 2) **GC : Unique Permanent gas Analysis by GC**  
**Permanent gas analysis (CO- CO<sub>2</sub>, etc..) by GC is becoming more and more popular. Mr. Miles Snow (Chromatography applications specialist) will discuss this application in details.**
- 3) **GC/MS : New Innovations that brings unsurpassed performance**  
**Miles will discuss about the recent breakthrough in GC/MS technology and what this could mean for your applications.**

Un séminaire éducationnel gracieux présenté par PerkinElmer
