

You're Invited...

PerkinElmer Lunch & Learn Series

Grab your pizza lunch and come join us for a one hour presentations on:

- 1) **NANOPARTICLES ANALYSIS BY LC-ICP-MS:**
Dr.Chady Stephan (Inorganic applications specialist) will discuss about recent advancement in hyphenation techniques for nanoparticles analysis.
- 2) **UHPLC: CONVERTING HPLC METHODS TO UHPLC:**
Mr.Miles Snow (Chromatography applications specialist) will explain how UHPLC works, and will show how to convert HPLC methods to the faster & more productive UHPLC that can increase throughput nearly 10 fold while reducing solvent cost by 90% or more.

Date and Location

October 27th, 2010
11:30am – 1:00pm
McGill University –
Chemistry dept.
Otto Maass building
ROOM: OM321

Reserve your seat!
